ED CANNADAY

State Representative District 15

As District 15 State Representative, my main goal is to keep constituents informed on the various issues that their state government has identified as a potential point of focus. It is within this context that my responsibility to the voters of this House District is to gain a sense of their views on these issues and thereby give them a voice in their legislative body at the Capitol.

This can only be done by being available and receptive to share my views and be responsive to their understanding on how these issues should be addressed and potentially resolved.

I am honored to serve as your State Representative. It is my goal to be responsive to your concerns so that your state government is being accountable to the needs of its citizens.

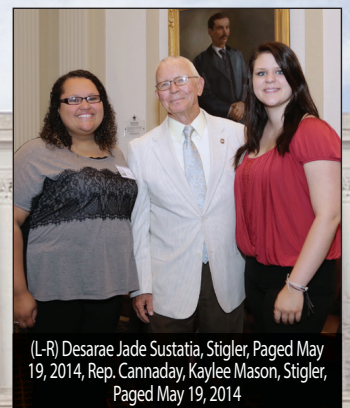

Rep. Cannaday and Travis Fielding,
McCurtain HS, Paged April 21, 2014
